DAMASCUS STEEL

Damascus steel has a beautiful colouration to it. The blades of these knives are made of high-quality 67-layer Damascus steel, which is made from two different types of steel that are heated and combined into one material. Damascus steel is hard (these knives have a hardness of 60 HRC – according to Rockwell), wear resistant, highly stable and has a long service life.

Damascus steel kitchen knives are not intended solely for professional use. They are also suitable for amateur chefs, home cooks and gourmets. Their slicing capabilities are precise and the cuts perfect.

The handle of the knife is made of pakkawood – a pressure-treated wood-resin composite that is stable and resistant to heat, moisture and mechanical wear.

Our eighth edition will definitely please you!

Even with this eighth edition, the idea remains the same. To fill the next 100 pages of the Orion magazine with interesting products, so that you enjoy browsing and reading through it, find some inspiration or add some new pieces to your household collection. As always, the content is different because we try to fill our magazine with the latest hits, newest products and current trends, all in attractive colours and designs. You will be pleased to see that we are continuing to expand our collections and add more size options to our popular product ranges.

Our colleagues from the Purchasing Department have worked hard to offer you as many new products for your kitchen, bathroom and household as possible. It goes without saying that for the coming season we have everything you need for barbecue parties, picnics and summer dining on the patio or in the garden. The Marketing Department do their best to ensure that the most up-to-date information is always available to you as soon as possible so that you don't miss a thing. You can find additional advice, tips and ideas on our various social media platforms. Our trained staff in stores all over the country will be happy to take care of you, advise you on purchasing and help you choose. Our products make beautiful gifts for your loved ones. If you prefer shopping online, you can find us at www.oriondomacipotreby.cz.

01 grilling

Spring and summer are finally on their way. Are you also looking forward to beautiful days full of sunshine? The days will get warmer and longer, and as soon as they do, you can start to enjoy short coffee breaks on the patio. Soak up the first scents of spring, the warmth of the sunshine and enjoy the sight of nature waking up. It won't be long before we can all dine outside and gather with our families and friends for a barbecue. The following pages cover everything a grill master might need for both grilling and barbecue prep work.

This gourmet set will not only please gentlemen who like a proper steak. Everything is stored in a gift box, so it makes an ideal gift that will save you the hassle of wrapping it nicely.

It can be served with various side dishes – baked potatoes, French fries, vegetable salad, grilled vegetables, pastries, such as baps, sandwiches or toast, and with various dips and sauces.

A proper, sharp knife is needed when grilling and preparing meat. Ideally, it should always be comfortably at hand. Our knife holder will help with that. Both variants, the one with plastic bristles and the magnetic one, are great. Knives won't dull and you don't have to look for them in the cupboard. In addition to knives, it can store other kitchen utensils and tools.

**Holder with a basket

Grilling grid

metal, plastic, 32x26 cm
111183

14.99

- on our website www.oriondomacipotreby.cz you will also find a grilling grid for fish, burgers and vegetables

- excellent aid for preparing juicy steaks. Softens all kinds of red meat. The sharp blades (20 pcs) soften the structure of the meat, which contributes to even and faster cooking of the meat. Thanks to the tenderization process, if the meat is marinated, the marinade penetrates the meat better – marinating time is shorter and more effective. Even at home you will achieve professional results.

Meat tenderizer

plastic, stainless steel, w. 12.5 cm

Picnicking in the grass

Pack a snack or a light lunch in a picnic basket and head into the countryside. It's bound to be a truly romantic, beautiful and fragrant experience. The best thing to do is to pack lightweight plastic dishes into your picnic basket, so that it is not too heavy to carry.

Summer at the campsite

Recently, travelling in a caravan or motorhome, admiring the natural beauty, sightseeing in historical towns and other places have all become very popular, even trendy. The advantage is that you are not bound to one place for the entire holiday or trip. You can stay for a few days and in a matter of a few hours be somewhere else entirely. When you buy a motorhome, you also need to equip it in a functional and thoughtful way. The main requirements for such equipment are ease of storage, light weight and functionality. The same requirements apply if you're going camping.

Spring and summer drinks

A refreshing drink on a hot day is priceless. Whether you're preparing them at home or on the road, you'll need a few tools to help you. People say that you eat with your eyes, and the same goes for drinks. A beautiful glass entices us to taste the drink it holds. And if it is dewy on a hot day, you simply can't resist, making adherence to your drinking regime an easy task!

ORION MAGAZINE

You come across drinks dispensers with taps in cafés, at weddings and other celebrations. They are a great solution for serving drinks during your patio get-togethers with friends, and children love them! It is a very convenient way of dispensing drinks with minimal risk of spillage. Using the tap is a lot of fun for the little ones, so parents don't have to remind them to keep themselves hydrated. They are also safe during the summer because they prevent wasps and other stinging insects from getting to your drinks.

Fruit and vegetable snacks for the little ones

During the spring and summer seasons, various types of fruit ask to be used and processed. For example for breakfasts, snacks or purees for little children. Our mini masher will come in handy if you prefer preparing the exact amount of fruit or vegetable puree you currently need fresh each time. It can handle soft fruits and cooked vegetables. You can briefly boil tougher fruit before mashing it.

Use these plastic containers with lid to pack the snack prepared for children in this way, so that you can take it on a walk, to the playground, to the park, or to the pool.

ICE LOLLIES

PRESERVING |

Processed fruit can also help to cool you down if you use it to make homemade fruit mousse, puree or ice lollies. Just add honey or sugar, or yoghurt or cream. The children won't be able to resist. On top of that, it's a healthy snack full of fruit vitamins!

Sweet red strawberries

NEW!

Mechanical scale 5 kg
plastic, with bowl, 2.7 l
131813
15.99

The first sweet strawberries of the summer can be processed in various ways. They are best served fresh – in sundaes, cakes, sorbets, homemade ice cream or in dumplings. If the harvest is bountiful, it is a shame not to process them. Traditional strawberry jam without sugar and chemicals allows you to snack on strawberries all year round. This way, you can enjoy pancakes, crepes or pastries with butter and jam at any time.

Strawberry jam

quick, easy, no chemicals, no sugar

- 2 kg of strawberries
- 15 g of agar (vegetable gelatin)
- 1 vanilla bean

Mash the strawberries with a masher, cook for 3 minutes, add the agar and seeds from the vanilla bean, and cook for 5 minutes. Pour the hot jam into carefully washed and completely dry jars. Close them with a screw-on lid, turn them upside down, and let them cool. Store in a cool and dark place. If you have jars with a rubber seal, you must still sterilize them for 10 minutes in a cooking pot after closing.

You can also use jars with lids to preserve fruits other than strawberries, as well as vegetables: apricots, peaches, plums, peas, cucumbers, peppers, black cranberries etc. And if you don't want to preserve whole fruits, you can juice them instead. Juice from fruits and vegetables has a great taste, is purely natural and full of vitamins. Not only will you enjoy it, but fresh juice will give you plenty of energy. Juice is ideal for immediate consumption. However, if you have too much juice and the right bottle, you can store it in the refrigerator, put it in the freezer or can it. You can use the juice to make homemade ice lollies with no chemicals or artificial colourings. You will find moulds on page 23.

Served in a jar

A sweet or savoury breakfast or snack looks great served in a glass. It is also a handy way to pack it to work, school, etc. The preparation doesn't take more than a minute. Replace doughnuts, cakes and baguettes with a healthy alternative. Moreover, you won't burden nature with disposable packaging, as you can reuse the jars!

- *protects stored food and spices from moisture and odours from other foods*

Homemade yoghurt

Imagine, in the evening, you find out that you have the last yoghurt, but you need a healthy snack or breakfast to feed more hungry mouths. No worries. Heat one litre of milk to about 90-95°C for 4-5 minutes and then cool to 40°C. Add one white yoghurt with live culture, mix and divide into squeaky clean glasses. Place them in a warm place, such as an oven pre-heated to 50°C. Turn it off before you go to bed and your yoghurt will be ready the next morning (the yoghurt must be kept warm for 8-10 hours). Serve them chilled.

attaching an apple

We have also prepared interesting news and exciting tips that will save you time, work and money for this half of the year. When you see some of them, you will ask yourself how you could have lived without them so far! So let's take a look at them together on the following pages.

Let's start with a tool that at first glance looks like it belongs on a workbench somewhere in the workshop, but for which the opposite is true! Simply attach it to a smooth worktop using the suction cup and remove the skin from the apple in no time. It also offers the option to strip the apple of its core and cut it into a spiral at the same time. Cut the apple in half and you are done and ready to serve.

Shaker with RECIPES

Handy tool for preparing various alcoholic drinks and soft drinks. The outer black part can be rotated. By selecting a drink in the top of the stainless steel part, you reveal the required ingredients and quantities. The silicone seal guarantees tightness even during shaking. The cap is equipped with a strainer for straining and catching ice and ice chips.

TEQUILA SUNRISE

- 90 ml of tequila ○ 180 ml of orange juice
- 30 ml of grenadine ○ ice ○ slice of orange, candied cherry

Put the ice in a shaker, add the orange juice and tequila. Mix everything properly in the shaker and pour into a tall glass. Finally, add the grenadine, which will sit spectacularly at the bottom of the glass, and garnish with a slice of orange and a candied cherry.

COSMOPOLITAN

- 40 ml of vodka ○ 40 ml of orange liqueur
- 40 ml of cranberry juice ○ lime juice
- slice of lime

Place all ingredients in a shaker and shake well. Serve the Cosmopolitan in a cocktail glass, and do so without ice. Garnish with a slice of lime.

SEX ON THE BEACH

- 40 ml of vodka ○ 20 ml of peach vodka
- 60 ml of orange juice
- 60 ml of cranberry juice ○ ice ○ slice of orange

Put the listed ingredients in the shaker and mix them. Fill the glass with ice to about one third and add the contents of the shaker. Finally, garnish with a slice of orange.

PIÑA COLADA

- 40 ml of Cuban rum ○ 80 ml of pineapple juice
- 20 ml of cream ○ 10 ml of coconut syrup
- ice ○ slice of pineapple, candied cherry

Pour the cream, rum, pineapple juice and coconut syrup into the shaker. Shake and you will conjure up a drink called Piña Colada. Finally, garnish with a slice of fresh pineapple and a candied cherry.

Crisp Parmesan cheese biscuits with herbs

Everybody is familiar with biscuits. But with these you can make those people happy who prefer savoury over sweet. Savoury biscuits with herbs make a great match for wine and beer. You can choose your favourite herbs to use. We recommend choosing 2 to 3 types and experimenting with different combinations each time. You can use: thyme, parsley, rosemary, sage, oregano, basil, chives, garlic...

recipe

- 125 g of butter
- 70 g of grated Parmesan cheese
- 190 g of fine flour
- herbs, salt

1. Pick the smaller leaves from the top of the herb or the tips of its sprigs for decoration and finely chop the rest of the herbs. A cradle-shaped knife that can easily chop herbs is a great help. Rather than using a wooden chopping board, use a plastic one that's easily washable to remove the green colour afterwards.

2. Add salt, flour and finely grated Parmesan.

3. Add chopped butter and make a dough, wrap in cling film and put in the fridge for at least 30 minutes. Then roll out the dough into a thin sheet (about 0.5 cm) on a silicone rolling mat. Work quickly so the butter does not melt too much.

4. Cut the dough into squares or rectangles using the pastry wheel, or choose a pastry cutter in the shape of a circle or heart, for example. Ensure that the edges of the pastry cutter do not damage the silicone rolling mat. Decorate each shape with leaves and sprigs of herbs and press them into the dough a little with your fingers or a rolling pin.

3.79

5. Transfer the cut-out shapes to a baking sheet with baking paper or Teflon foil and place in a preheated oven. Bake at 180-200°C for approximately 25-30 minutes. The baked cookies should be slightly pink. The baking time depends on the size of the biscuits, the characteristics of the oven, and whether you use hot air. Do not overcook the biscuits to avoid the parmesan becoming bitter.

Fragrant cakes

Fragrant cakes for those who have a sweet tooth! Preparation is easier with a special double-sided tart tamper. It helps with baking press-in tarts and Moravian stuffed cakes. It is used to make a dent for fillings in the risen dough. You can also use it to make homemade mini pizzas.

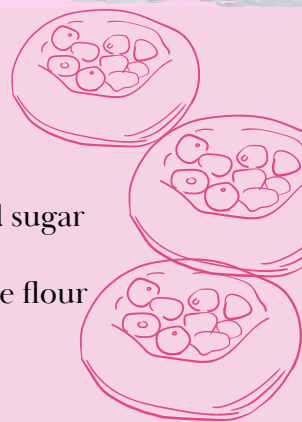

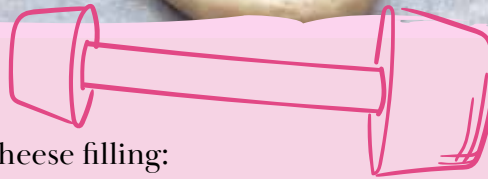

NEW!

Tart tamper

beechwood, d. 4 and 5 cm
121035

3.59

- 42 g of yeast
- 250 ml of milk
- 400 g of flour
- 70 g of fine flour
- 130 g of granulated sugar
- 150 g of butter
- 4 egg yolks
- plum jam

Cream cheese filling:

- 300 g of cream cheese
- 50 g of granulated sugar
- 1 teaspoon of vanilla custard powder
- 1 tablespoon of raisins
- a little rum

Crumble topping:

- 30 g of granulated sugar
- 25 g of butter
- 40 g of semi-coarse flour

First, prepare the sourdough from yeast, 1 teaspoon of sugar and 2 tablespoons of milk, and let it activate. Sift both types of flour into a bowl, adding the sugar and sourdough. Stir in the remaining milk, melted butter and 3 egg yolks. Knead the smooth dough and let it rise.

Meanwhile, prepare the cream cheese filling. Mix the cream cheese, sugar and custard powder, and stir in the raisins and rum. At the same time, prepare the crumble. Rub the butter into the sugar and flour mix until it resembles breadcrumbs. After the dough has risen, cut small pieces out of it with a spoon, making them round and turning them into patties. Fill them with the prepared cream cheese filling and then wrap them and place them on a baking sheet. Let them rise on the baking sheet for a while. Press out the centres of the cakes with the tart tamper and fill the space with plum jam. Brush the edges with the remaining beaten egg yolk and sprinkle with the crumble. Bake in a preheated oven at 160-170°C for about 35 minutes.

Sprinkle the cooled cakes with sugar.

Stuffed cones

These are easily made using a cone-shaped mould. Bake traditional waffle ice cream cones in a waffle maker for your loved ones. Fill them with homemade ice cream, fruit, cream, puree or savoury spread. The mould can also be used to make sweet honey or nut cones filled with whipped egg whites... Cut a circle with a diameter of roughly 12 cm from the dough, bake it, shape the dough into a cone using this mould and let it cool down.

NEW!

Ice cream cones

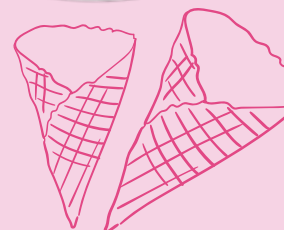

- 2 egg whites
- 85 g of powdered sugar
- 90 g of fine flour
- pinch of salt
- 0.5 teaspoon of vanilla essence
- 30 g of butter

Heat the butter and let it cool down slightly. Mix the egg whites with the sugar, vanilla and salt with a fork. Do not whip, only stir. Stir in the flour and then the melted butter. The dough should be semi-solid. Meanwhile, warm up the waffle maker for the cones. Once hot enough, pour about a spoonful of dough into the middle of the hotplate and cover quickly. The waffle is done when golden brown. Take the waffle out and roll immediately using the wooden cone. Hold the final shape tightly for a few seconds.

Stuffed cones

- 7 egg whites
 - 300 g of powdered sugar
 - 100 g of nuts
 - 100 g of almonds
 - 100 g of fine flour
- Filling:
- 4 egg whites
 - 200 g of granulated sugar
 - 1 tablespoon of jam

Whisk the egg whites and sugar together (not over steam) and stir in the rest of the ingredients. On baking paper, make small patties of approx. 12 cm in diameter, but only as many as you are able to roll onto a wooden cone after baking. Bake at 200°C for about 5 minutes. When the edges start to turn pink, turn off the oven. The dough bakes quickly and quickly burns. After cooling, fill with the mixture of whipped egg whites and jam using a pastry bag and coat the tops with chocolate.

Proven and popular **GRANDE**

NEW!

This cookware with high-quality non-stick PFLUON GRANIT coating, in which you can cook, fry, stew, braise and roast with minimal fat, should not be anything new to you. What is new in this range of great cookware, though, are the tall pots with glass lids in three sizes. There is also a new saucepan, deep pan and square egg pan.

Spring soup from professional chef Libor Halousek

- 1 l of vegetable stock
- 1 small onion
- 2 cloves of garlic
- 1 kg of frozen peas
- salt, pepper
- cream
- a sprig of fresh dill
- smoked salmon

Fry the chopped onions in olive oil. When fragrant, add 1-2 cloves of garlic. Mix and add 1 kg of frozen peas. Frozen peas are delicious because of the beautiful green colour. Pour in a litre of warm vegetable stock and bring to the boil. Then blend everything with a hand blender. Season with salt and pepper and strain through a colander. Add cream and finely chopped dill to soften the taste of the soup. Serve with a slice of smoked salmon, cream and a sprig of dill.

Roasting and gratinating

This baking dish with lid is made of hard borosilicate glass, which is resistant to temperature (-20°C to +300°C) and mechanical wear. The advantage is its long service life and hygienic safety. The dish is smooth and non-porous, easy to maintain and dishwasher safe. It is designed for food preparation in all kinds of ovens, including microwaves and hot air ovens. You can use the baking dish with the lid, or each part separately. You can use the baking dish for roasting, gratinating, stewing, serving or storing food in the refrigerator.

NEW!**Roast pork**

- 1 kg of boneless pork neck
- salt, pepper
- 1.5 tablespoons of sugar
- 1 tablespoon of sweet ground paprika
- 2 tablespoons of mustard
- 100 ml of virgin olive oil
- 1 clove of garlic

Divide the pork neck into several pieces, place it in the baking dish and add paprika, salt, pepper, mustard, garlic, olive oil and sugar. Carefully coat the meat in the marinade and refrigerate until the next day. The next day, pour in 150 ml of water, cover with a lid and bake in a pre-heated oven at 150°C until tender. It will take about 3 to 4 hours. Tear the roasted meat with claws. Mix the meat with the meat juice or add some vegetable or barbecue sauce. You can then put it in buns and make great burgers or put it on toast, tortillas, etc. You can also serve it with a side dish. Potato or vegetable fries, mashed potatoes, pumpkin puree and vegetable salad all make excellent side dishes.

Pastel green accessories greenish

NEW ITEMS |

Are you as excited as we are about the beautiful green colours all around us? Green symbolises health, harmony and balance. It brings peace and quiet and is empowering and refreshing.

It also boosts appetite, zest for life and develops creativity. Green induces calm in the bedroom, improves concentration in the study, and is an excellent colour for (in) a kitchen. That said, you don't have to run to the shop straight away for the paint. Try to liven up your kitchen with new green items from the GREENISH collection and perhaps try to combine them with wood or bamboo products.

Each colour has the ability to evoke certain sensations and vibrations in us. We perceive their energy to a certain degree and let them affect our mind and body. Choosing colours for interiors is not just a matter of intuition, taste or trends. It also depends on the size of the spaces and the lighting conditions. What matters is whether the colour is meant to be inspiring or calming.

Great looking and trendy

NEW ITEMS |

The double-walled glasses, cups and saucers from this range of products are very popular. No wonder. They make every drink look delicious. They come in a timeless design and should be part of every household. In addition, the double borosilicate glass wall has a practical function. It maintains the temperature

of the drink for a long time, so your morning coffee does not immediately cool down and your refreshing drinks stay cool longer in the summer heat. Another advantage is that they are resistant to high and low temperatures, scratching, cracking and chemicals. They are more resistant to thermal deformation than ordinary glass.

This time around we have added different sizes and shapes with a grey inner part.

"handbag" shape

On warm days, you can boost the cooling effect and extend the time for which the contents are kept cool and fresh with cooling packs. You can pre-freeze them in the freezer and put them into the thermal bag before leaving the house. You do not have to worry about refilling them. Just store them when you get home and use them in the same way next time. Smaller packs can even be used to cool a swelling. For that you need to keep at least one pack in the freezer at all times. It is necessary to wrap it in a cloth or tea towel so that the cold does not injure your skin.

Cooling pack

Some people prefer storing food or drinks in glass containers. Plastic cap is fixed via 4 clips.

Always handy!

Bags with a double plastic zip enable you to store snacks, fruit, vegetables and other foods, as well as beads, buttons, cosmetics and other small items.

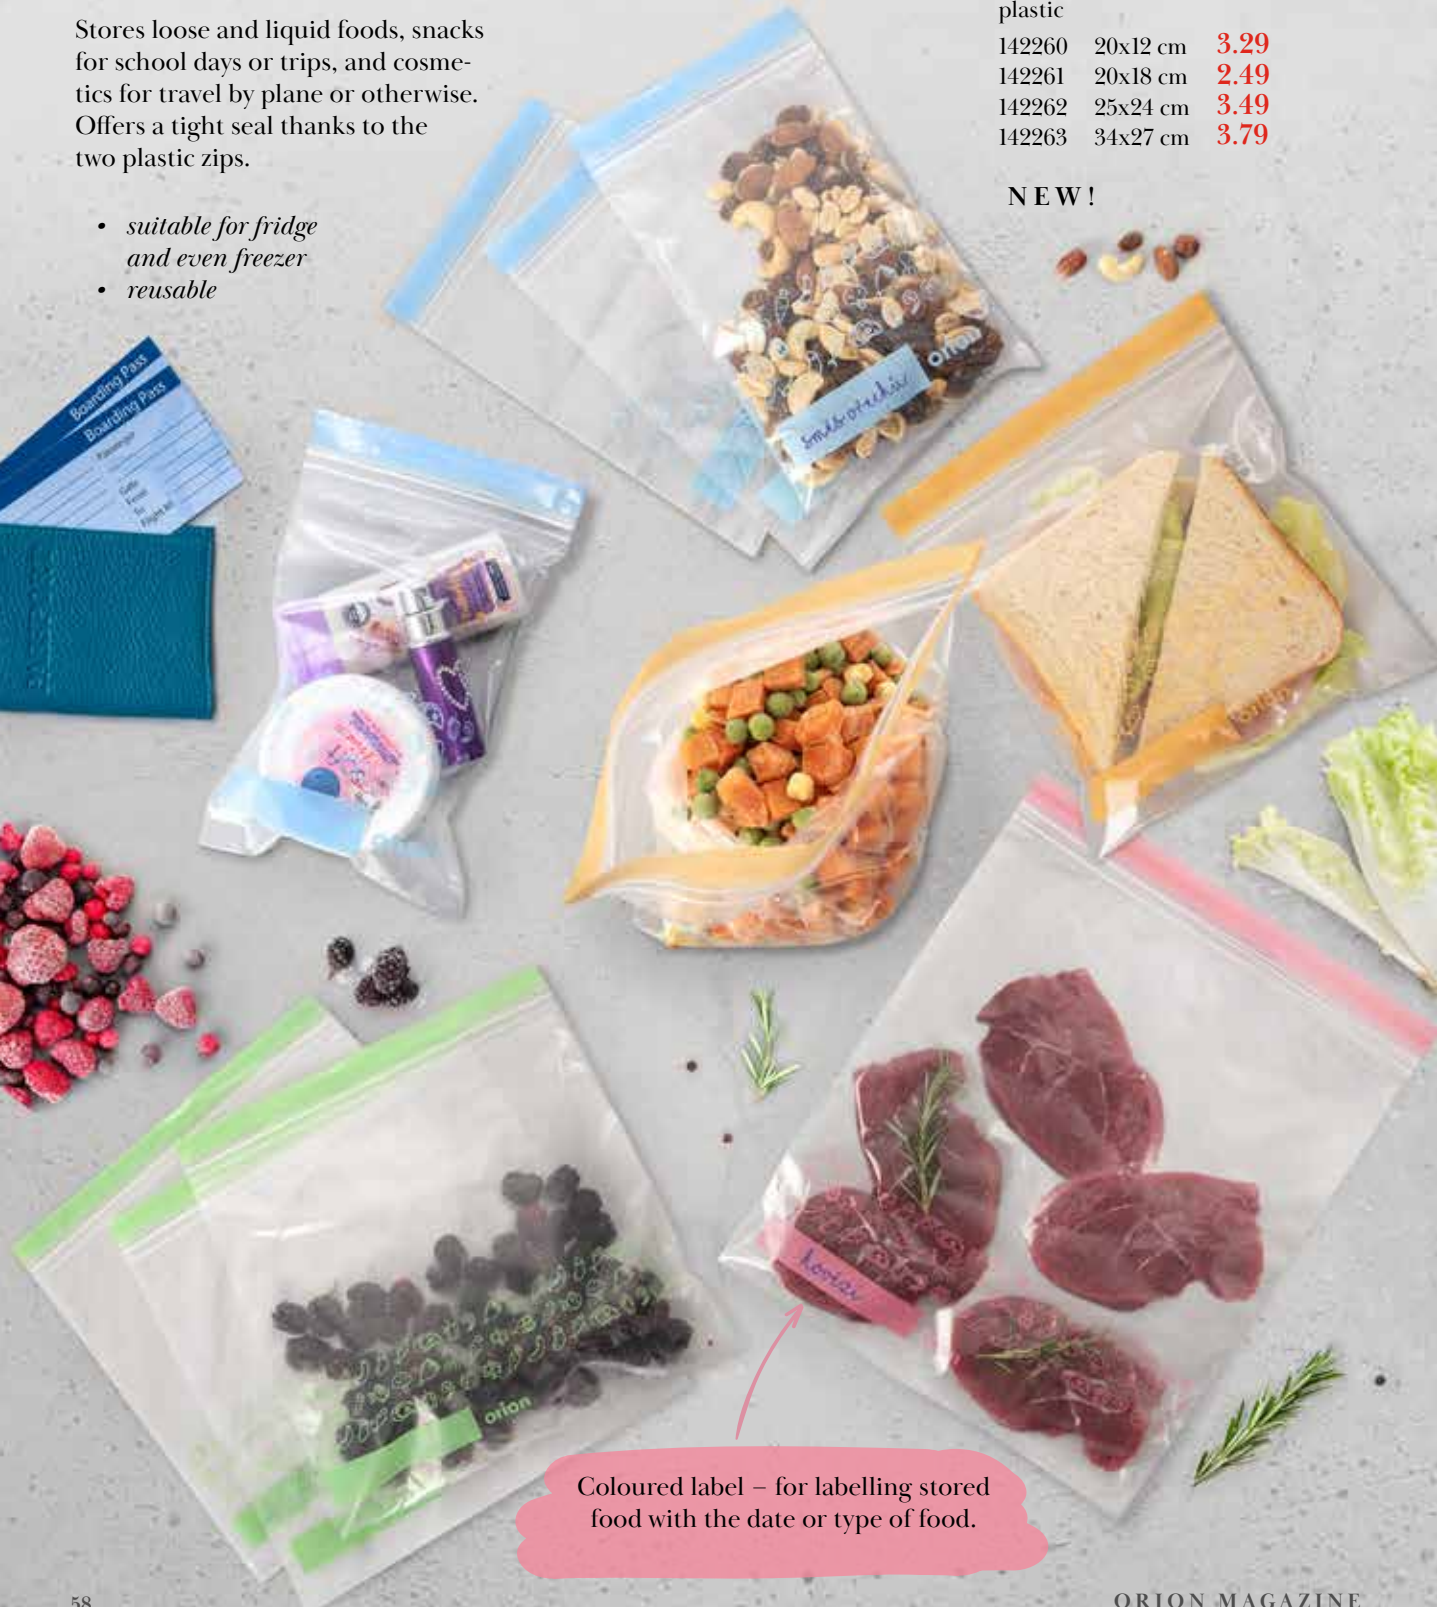

Stores loose and liquid foods, snacks for school days or trips, and cosmetics for travel by plane or otherwise. Offers a tight seal thanks to the two plastic zips.

Coloured label – for labelling stored food with the date or type of food.

Healthy snacks

A healthy snack in a snack cup with lid and a compartment for cereal is great for both school days and trips. You can carry yoghurt or a snack together with muesli, cereal or sponge biscuits. It is also suitable for vegetable and fruit salads, dressings and cold soups. The plastic ring offers better grip of the cup and can be used to attach a spoon.

Refreshing drinks

A refreshing drink from a cup with lid and straw can be enjoyed at home, in the garden or by the water. It is suitable for summer sodas, fruit drinks, juices and mineral water. No insects can get in, so the drink is safe. It is an excellent solution for serving drinks to children or to the elderly, who no longer have good command of their hands. Unlike with traditional glasses or cups without lids, the drink cannot spill from these cups. The straw guarantees that there is no need to tilt the cup and therefore provides an easy way to sip the drink. Thanks to the material used, sharp shards do not form when the cup falls and hits the ground, eliminating the risk of injury.

7.99

This mould will help you prepare 8 delicious bars. You can choose what fruits, nuts, seeds and other delicious ingredients you want to add in your bars. You can take the bar on a hike with you in your new fanny pack.

It is compact, light, does not absorb flavours and can also be used in the oven or in the freezer to make large ice cubes.

Ingredients for healthy bars:

- 100 g of nuts or a mix of nuts and seeds
- 200 g of dried fruit
- 50 g of nut butter
- 50 g of oat flakes
- 1 tablespoon of flaxseed

Muesli bar mould

silicone, 21.7x16.7x1.5 cm

each mould 9x3x1.3 cm

151793

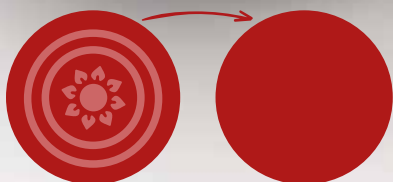

4.59

Roast the dried ingredients and let them cool down, add the dried fruit, combine with the butter and blend, then divide into moulds. You can add cinnamon, honey, coconut, chocolate...

Smart cookware *Gali*

The Gali range from the renowned Swiss manufacturer ILAG, with its high-quality **Essential** 2-layer non-stick coating and 2-layer induction bottom, heats faster and more evenly than a conventional induction pan/pot for more efficient cooking. The ILAG coating offers **excellent non-stick properties, great durability and easy maintenance.**

HEATED UP
to 210°C

Features a **THERMO POINT** (temperature indicator) that changes colour when the cookware reaches the ideal temperature for food preparation. **It ensures perfect conditions for cooking, frying, steaming...** The lighter rings of the thermo point change colour at about 160°C and disappear completely at about 210°C, leaving a solid red field. The thermo point protects the cookware from overheating and therefore preserves its non-stick properties.

Children at the dining table

They will enjoy their lunch, dinner or snack all the more when it is served in a colourful animal. These are essentially divided plates and bowls with suction cups that hold them firmly in place, so that children can learn to eat without your help. The shapes and colours are attractive to young diners, and when they are finished with their meal, you can talk to them about various topics related to animals, colours, etc.

Bowl with suction cup

silicone, d. 12 cm, h. 8 cm

129221 green

129222 yellow

6.99

These round bowls are made from the same material and have the same suction cup function. Their shape helps to facilitate the adoption of independent eating by children. More food stays in the bowl, which means there is less to clean up from the table and floor.

The suction cup holds it firmly in place.

Table with an interesting design for sitting down with wine at home, on the patio, in the garden, at the campsite... The bottle can be firmly placed in the table, so there is no risk of spilling. The glasses are also safe when inserted into the prepared holes. Which leaves enough room for various snacks such as cheese, cold cuts, vegetables, nuts... It can also be used for breakfast in bed or if you watch TV shows from bed in the evenings.

SPRING - SUMMER 2024

Well organised

Universal organisers can help you organise food in the fridge or cupboard, as well as organise kitchen utensils and spices, DIY supplies in the workshop or garage, sewing supplies... Use the handle to pull them out and slide them back with ease.

The spring and summer produce mountains of delicious fruits. Baking great cakes is therefore an irresistible urge. Silicone moulds make preparing them that much quicker and easier. They are shaped so that after baking the corpus there is enough space for fruit and gelatin, cream cheese, whipped cream, etc. Even in winter, the mould doesn't need to lie idle. Fill them with cream cheese, poppy seeds, plum jam or savoury variations with cheese and vegetables.

Clean and organise your home effectively

We know the feeling. We never really want to clean up either. While there are a few passionate organisers, most of us have to force ourselves to clean up. But if you have good aids, cleaning becomes that much easier and faster. Why not try playing some pleasant music in your headphones? This way, you can dance around under the influence of rhythms while you clean. After all, everyone likes their home to be cosy, tidy and clean, which means we have to find some way to deal with the chores!

Let's start with the topic of cleaning. When everything is clean and in its place, then we can start beautifying our home with various accessories and decorations. Sometimes a little change is all it takes.

Sink/washbasin pad

plastic, 36x14x0.6 cm

NEW!

540118

Mango wood

Mango trees originate in Southeast Asia, but due to their popularity, they are now also cultivated in parts of Africa and the Americas. We were enchanted by the beautiful colour and texture of the wood. We have therefore carefully selected interesting pieces whose origin and production come from the north of India. The trees are cut down and the wood is processed after it dries. Usually only older trees that no longer produce fruit are processed, thereby giving them new life.

- *great addition for the patio, balcony or barbecue and for dining in the garden*

- *swivel hook*
- *adjustable width of clips*

Think of the environment and our planet. Do not fill your waste bin with organic waste from cooking. Get a suitable organic waste container. You can always keep a waste bin for organic waste at hand in the kitchen. Suitable for fruit and vegetable peels and trimmings, coffee grounds, used tea bags, eggshells, etc. Cover it with the lid and when it is full, empty the contents into the compost bin or brown container with organic waste. Practical folding handle guarantees comfortable carrying.

NEW!

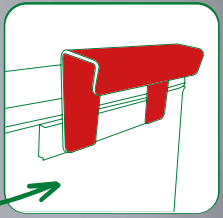

Removable frame for attaching the bag.

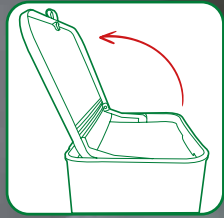

Very practical aid that comes in handy while cutting, peeling and cleaning. You can immediately put the waste into the open bin.

2 METHODS OF OPENING

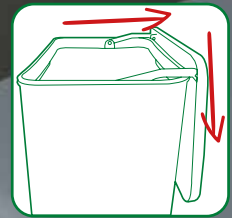

You can place the waste bin with hinged lid on the floor, hang it on the wall with 2 screws (mounting material not included), or hang it on the cupboard door – mount the bracket that enables this to the back.

1. lift up the lid

2. slide forward using the loop and fold down

Compost accelerator 50 ml

390128

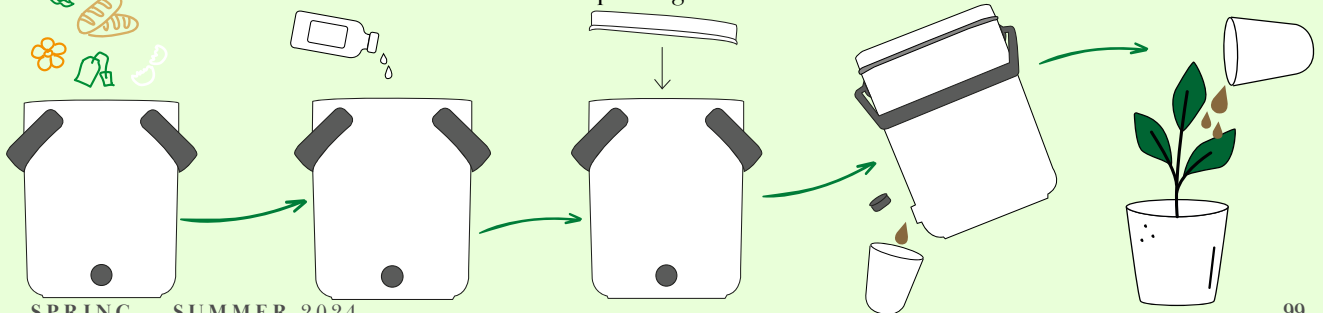

6.69

- *from 50 ml of concentrate you get roughly 250 l of composting liquid by diluting with water*

Home composting

This plastic container with lid and drain tap is suitable for home composting of organic household food waste.

As the waste decays, the liquid from the waste drips into the bottom through the sieve. You can drain the liquid into the cup using the screw valve. It makes excellent fertiliser for plants. Just dilute with water and watch your plants grow!
